

PROJECT PULSE

Construction Management in Real Time from Anywhere

-  **COMMUNICATE & ACT FASTER.** Construction projects have many moving parts with large budgets, razor-thin margins, multiple subcontractors, and aggressive schedules. A breakdown in any of these areas could spell disaster. Project Pulse streamlines communication at all levels to all who need to know.
-  **REDUCE RISK.** Project Pulse is a premium Construction Performance Management Solution designed and built for any size contractor. Owners, project managers, and subs have the ability to update and monitor all facets of their projects.
-  **RUN EFFICIENTLY.** Do more with less. Using your company's customized workflow and schedule, Project Pulse guides your team through every step of the project—minimizing delays and missed deadlines to help you **finish, on-time and under budget.**
